BUILDING ORIGINALS

Momen Architects & Consulting Engineers holds a prominent position as a consultancy firm both locally and globally. It takes great pride in contributing to the distinctive skyline of major cities worldwide with its remarkable landmarks.

Notably, Momen played a significant role in shaping the city of Cairo, where its main headquarters is located and was first established in the year of 1945.

For individuals knowledgeable in architecture, design patterns, and exceptional creativity, it becomes evident when a space is crafted by Momen Architects.

It comes without saying, the explicit engineering complexity behind the designs producing a full technically engineered profile from drawings to reality.

We understand that success in engineering requires a perfect blend of technical expertise, creative problem-solving, and a commitment to quality. With years of industry experience, we have honed our skills and built a reputation for delivering reliable and cost-effective solutions across various sectors.

As a consultancy firm, MOMEN enjoys a prestigious stand among the pioneering consultants of Egypt, the Middle East, and a world presence.

INTRODUCTION

*"SIMPLICITY IS THE ULTIMATE
SOPHISTICATION"*

*Leonardo DaVinci Italian Polymath April
15, 1452 - May 2, -*

At Momen Architects & Consulting Engineers, we aim to exemplify 75+ years of originality, innovation, and creative work in engineering and architecture. With a global presence rooted in Egypt, we strive to shape skylines and leave a lasting imprint on major cities worldwide through our iconic landmarks.

Driven by a passion for excellence, we combine our extensive experience with contemporary collaborations, fostering long-lasting relationships. Recognized for our ability to create distinct patterns and unique designs, we aim to captivate those who appreciate craftsmanship inherent in our work.

As a pioneering consultancy group, we hold a high position among our peers in Egypt, the Middle East, and across the globe. Our unwavering commitment to quality and our dedication to pushing the boundaries are the cornerstones of our success. With a profound understanding of the built environment, we strive to surpass expectations and shape a future where only excellence thrives.

THE MISSION

*"because of this, Originality consists in
returning to the Origin"*

*Antonio Gaudi
Spanish Architect*

Our mission is to be a globally renowned architectural consultancy, recognized for our 75-year legacy of originality, innovation, and creative excellence. We aspire to shape iconic skylines and inspire awe with our distinctive landmarks, leaving a lasting impact on major cities worldwide. Through our passion for design and meticulous craftsmanship, we aim to be the preferred choice for those seeking architectural marvels that showcase unique patterns and unparalleled artistry. As trailblazers in our industry, we envision occupying a prominent position among Egypt, the Middle East, and the world, driven by our unwavering commitment to quality and our relentless pursuit of architectural brilliance and engineering excellence.

At MOMEN, our mission is to provide exceptional engineering consulting services that empower our clients to achieve their goals and shape a better future. We aim to deliver innovative solutions that enhance efficiency, sustainability, and safety while maintaining the highest standards of professionalism and integrity. Through collaboration, expertise, and a client-centric approach, we target to be the trusted partner of choice for our clients, enabling them to overcome challenges and succeed in a rapidly evolving world.

BIM SERVICES

Urban and Architecture: *building originals.* Our architects work closely with clients to understand their vision and translate it into innovative and functional designs.

Civil Engineering: We offer expertise for various types of projects, complete structural solutions, and a value engineered approach. Our engineers ensure that projects are designed to meet safety structural integrity.

MEP Engineering: Momen's engineers provide designing and optimizing systems for all projects. The goal is to deliver sustainable, and cost-effective solutions.

Infrastructure Design: we specialize in infrastructure, encompassing roads networks, utilities, and public facilities.

Construction Supervision: We offer supervision services to ensure projects are implemented according to the design plans and industry standards.

Permitting: We offer extensive expertise in authority submissions and approvals, obtaining the necessary NOCs with a roadmap designed for each project type.

BIM: At MOMEN we provide full BIM services from LOD100 to 500, inclusive of full deliverables services (BEP, MIDP, TIDP, 4D and 5D as well as shop-dwgs extractions)
